Subject: Sellafield Sales Partner Agreement

Dear Sir(s),

We are pleased to advise that Moore Industries have appointed Fluidic Northern (Sellafield supplier number 50281) as sales partner for the supply of Moore Industries Process Control Instrumentation to Sellafield Ltd, their partners and their related contractors.

Technical representatives within the Fluidic organisation have knowledge of the products and applications and can offer advice on product selection, raise quotations and administer purchase orders.

We are confident that this sales partner arrangement will be widely accepted as being a benefit to all parties.

Paul Harris
for Moore Industries
